VALDEZ FIRE STATION ONE REPLACEMENT—PROJECT UPDATE—THE WEEK ENDING JUNE 21, 2020

VALDEZ FIRE STATION ONE REPLACEMENT—WEBSITE UPDATE—JUNE 17

Construction on the replacement Fire Station One is finally underway at the corner of West Pioneer Drive and Hazelet Avenue. Since mobilizing in mid-May, Dawson Construction and their subcontractors have cleared and grubbed the 7 acre site, removed overburden and poured over 100 cubic yards of concrete to form the deepest of the foundation footers.

Steel is ordered and will arrive on site within the coming week. Erectors will begin putting up the frame in early July with the goal of weathering in the building before significant snowfall.

Designed by Wolf Architecture and their consultants, Station One is on track to open July of 2021.

If you've driven or walked by the site, you've likely noticed that the Skate Park is still functional. For your safety, thank you for staying off of other parts of the site during construction.

Updates will be posted throughout the construction period. Questions about this project may be directed to Project Manager, Lindy Vititow at 907-835-5478 ext. 6.
